Open Bar:

This option allows your guests to enjoy complimentary beverages from the bar. This can be where the Host pays a deposit prior to the party and designates the first hour(s) as open to their guests. Then, based on the dollar figure on the amount consumed, the host would either receive a refund or pay the difference. Another option for the Host, is to pre-pay a specific amount to "start" the bar and when that dollar amount is used the bar will become a cash bar for the remainder of the bar time.
